ALWAYS AT THE FOREFRONT OF INNOVATION!

As global innovation leader for dental equipment, we continuously invest in research and thus in the future of modern dentistry. By networking digital technologies with integrated solutions and optimizing the treatment workflow, we create improved treatment results, more comfort and safety for the patient as well as time and cost savings in everyday work. The combination of constant innovative power and globally growing sales and service structures makes Sirona the global market leader trusted by thousands of practices and labs around the world. Enjoy every day. With Sirona.
WITH MORE EFFICIENCY FOR GREATER BALANCE IN PRACTICE ROUTINE.

Time is one of our most valuable assets. It’s a good thing we have SINIUS. The development of efficient solutions allows you to make optimal use of your time. The SINIUS treatment center is not only ultra-compact — it also delivers clear gains in terms of time and flexibility. The intuitive operation with the latest touchscreen technology and numerous integrated functions ensure this. **Enjoy every day. With Sirona.**
MORE TREATMENT FLEXIBILITY THANKS TO SMOOTH WORKFLOWS.

The SINIUS treatment center ensures more efficiency with its uncomplicated workflow. With integrated treatment functions, the user-friendly EasyTouch interface, and optimal use of space, SINIUS makes practical workflows with fewer steps possible. For you, this means clear gains in terms of time and flexibility.

**Integratable treatment packages for implantology and endodontics**

**Integrated hygiene function**

**Individual price/performance ratio**

**User-friendly EasyTouch interface**

**Choice of three treatment concepts that fit your personal methods**

**Optimal use of space**

**Unique chair lift system**

**Flexible positioning of dentist and assistant element**
PERFECTLY MATCHED TO YOUR PERSONAL WORK METHOD.

With three treatment concepts, Sirona has the right treatment center for every work method.

**SINIUS TS**

- Ergonomic positioning with independently movable dentist element and tray system
- Functional tray system with detachable tray that can be positioned very flexibly
- Large areas on dentist element and tray

**SINIUS THE SLIDING TRACK DESIGN**

- Unique ergonomic treatment concept.
- Dentist element can be easily moved forward and backward manually.
- Swivel-mounted dentist element ensures everything is at your fingertips.

**SINIUS THE WHIP ARM DESIGN**

- Dentist element can be rotated by up to 240° for optimal positioning.
- Maximum distance between the dentist element and instruments is 90 cm.
- Ideal for the widest range of treatment situations for working alone or with a team.

**SINIUS CS**

- Dentist element can be rotated by up to 240° for optimal positioning.
- Maximum distance between the dentist element and instruments is 90 cm.
- Ideal for the widest range of treatment situations for working alone or with a team.
MORE ERGONOMIC FOR PERFECT RESULTS.

Easier workflows, perfect results – with this goal in mind Sirona continuously develops its ergonomics program.

Sirona’s ergonomics program is based on decades of experience in ergonomics. And as an innovator in linking digital technology with system solutions, we always think ahead. The ergonomics circle stands for Sirona’s holistic vision of the relationship between ergonomics and workflow in practice routine. The circular shape symbolizes the continuous evolution of the program.

*Available with SIDEXIS 4.

**INTUITIVE SITTING**
- More freedom of movement
- Wireless foot control, manual sliding track, swivel arm or swivel tray
- Optimized reach distance
- Perfect coordination and variable positioning of dentist and assistant elements, dentist element and tray adjustable independently of each other in the SINIUS and SINIUS TS
- Intelligent dentist stools HUGO, CARL

**COMFORTABLE POSITIONING**
- Perfect adjustment of the treatment center
- Flexible height adjustment, optimal working height through vertical mouth alignment
- Best spine support
- ErgoMotion, lumbar support function
- High patient comfort
- Gentle lift drive, premium climate upholstery, lounge upholstery

**OPTIMAL VISIBILITY**
- Best illumination
- LEDview, LED instrument light
- Flexible headrest
- Motorized or double articulating headrest
- Perfect intraoral images
- SIROCAM AF/AF* autofocus camera

**INTEGRATED WORKFLOW**
- Integrated tabletop instrument functions
- Implantology, endodontics with apex locator display on SIVISION monitor*
- Intuitive operation
- EasyTouch user interface with customized operating concept
- Modern equipment
- Innovative instruments, modern SIVISION patient communication system, USB and Ethernet interface

**PERFECT RESULTS**
- Clinically perfect
- Esthetically perfect
- Perfect for the success of your practice
EFFICIENT INTEGRATION.

Simplify your practice workflow with the implantology function and give your patients a more comfortable treatment and many advantages.

The integratable implantology function is clearly displayed on the touchscreen. Operation is easy, requires no previous experience, and no additional foot control. In addition, you save time because no retrofitting is needed and the cleaning time is reduced.

Integrated implantology
Through the integratable implant function, you can set the speed, torque, and flow rate of the sterile cooling fluid individually to your usual working steps.

Integrated pump for saline solution
The integrated saline pump is coupled to the foot control to complete the system. The quantity of sterile coolant required for each step of implantology can be set individually.

IMPLANT 20:1 contra-angle handpiece
With up to 70 Ncm, the IMPLANT 20:1 contra-angle handpiece has the necessary power for all milling and drilling work. For highly precise results in surgery and implantology.

BL Implant motor
The slim, light, brushless implantology motor has a maximum torque of 5 Ncm with no air escaping to the preparation site and has an internal cooling system.
EFFICIENT TO THE ROOTS.

The new and improved endodontic function guarantees a better workflow and thus more successful treatment. You have an overview of the entire workflow and can work absolutely hygienically, confidently, and efficiently.
SINIUS helps you to work without fatigue and with the best clinical results, even on long and busy days. Whatever your preferred posture and work methods, and the physical demands that you or your patients may have: SINIUS ensures healthy movement and maximum patient comfort.

**EFFICIENT FOR YOUR WORK METHOD.**

Motor-driven headrest
Automatically moves the patient’s head into the desired treatment position, gently and without effort.

Innovative wireless foot control
Freely positionable with no cable clutter, allowing you to move freely.

Manual sliding track
The dentist element can be moved manually into the right position with little effort.

LEDview
The triple-jointed support arm ensures optimum illumination of the treatment site. Can be activated via the No-Touch sensor or EasyTouch console.

HUGO
The smart work stool that ensures that you adopt the correct posture intuitively.

HELIODENT PLUS unit model
Fast, reliable intraoral X-rays with the HELIODENT PLUS unit model. The durable X-ray unit gives you maximum flexibility and optimal image quality.

SINIUS optimizes reach distances:
Flexibly positionable dentist and assistant element and tray position independent of the dentist element.
PERFECTLY MATCHED TO THE NEEDS OF YOUR PATIENTS.

HIGH PATIENT COMFORT AND MODERN PATIENT CARE.

With every aspect of comfort covered and the latest in multimedia technology, you and SINIUS provide your patients with the best possible care. The extra comfort provided by SINIUS pays off especially during prolonged treatment sessions. Your patients are relaxed throughout and you can concentrate on treating them. With the SiroCam AF/AF+ and the 22” monitor you expand not only your own view as the medical professional but you also help your patients to understand and make more informed decisions about treatment.
MORE EFFICIENCY FOR YOUR TEAM.

SINIUS gives you the highest hygiene standards and efficient use of time. From the smooth, easy-to-clean surfaces to the easily detachable components and integrated sanitization adapter, everything is geared to easy, time-saving handling and the elimination of potential sources of contamination.

**Integrated sanitization adapter**
For regular flushing of the water systems and monthly sanitization, you can simply connect your instrument hoses to the integrated sanitization adapters and with the press of a button you have optimal water quality.

**Automatic dosing**
If desired, the suction hose cleaning system can be equipped with automatic dispensing of chemicals from the Sirona maintenance and disinfectant list.

**Removable cuspidor**
The swiveling cuspidor can be removed for easy cleaning.

**Efficient suction hose cleaning**
The suction hoses can also be cleaned automatically quickly and easily.

**Elements can be thermally disinfected**
SINIUS features smooth, easy-to-clean surfaces. All elements critical for hygiene can be removed and be sterilized or thermally disinfected.

The DGKH (German Society for Hospital Hygiene) has confirmed that Sirona complies with the highest hygienic safety standards in accordance with the recommendations of the Robert Koch Institute.
**DESIGN MEETS FUNCTION.**

Form and function in perfect harmony: Sirona treatment centers have been honored with many design prizes and will blend in seamlessly with the style of your practice.

Prestigious design awards such as the iF communication award and the red dot design award bear witness to the outstanding design quality of the Sirona treatment centers. SINIUS offers an enormous range of design options for your practice with three different color schemes. Let your imagination run free and put together the perfect combination.
